through communication, engagement, laughter and learning**

Vision and Aims:

- To create a happy and secure personalised learning environment rich in stimulation, challenge and possibility.
- To ensure all members of the school and college community can grow in self-esteem, and reach their full potential.
- To inspire learners by providing an education that will equip them for the world beyond the classroom, for adulthood, and to proactively assist in the development of a community that will welcome and value them.
- To develop and enhance learners' communication and interaction skills enabling them to make positive relationships and communicate decisions; giving them the tools to make more informed choices to meet their future goals.
- To work in partnership with all stakeholders, with a shared goal of maximising and enhancing potential and possibilities, through a holistic approach.
